

### Book Description

Jett Cooper is Top Gun for Teens. It puts kids in the cockpit so they can experience turns, rolls and loops at breakneck speed.

#### **High speed. Low altitude. No Room for Error.**

The Blue Wolf Junior Air Competition is coming to the Air Show in Jett Cooper's hometown. To win the competition and a place at the prestigious Flying Academy, Jett must deceive his mother, win over prickly team lead, Charlie Dagger, and beat his toughest rival (and former best friend), Ella Tao – all in the space of two days.

With the help of his crazy Aunt Allie, Jett is about to set the aerobatic racing world on fire for all the wrong reasons. Will Jett soar to new heights or will he be grounded at home forever?

### What Readers Say:

*"It was so good! What a thrilling story, filled with so much heart and sensitivity when it comes to grief and coming of age. I just love it."* Anna Bishop

*"MAC Hill's writing is fast-paced, surprising, and full of heart. Even though I'm not very familiar with planes, it was the relationships, emotions, and twists that kept me hooked. I laughed out loud more than once and teared up several times."* Victoria Ellen

### About the Author

MAC (Melanie) Hill's love of aviation and the sky started as a child. High above Launceston, Tasmania, as a thirteen-year-old Air Cadet, she experienced positive and negative Gs for the first time in a Caribou and was hooked. She studied English Literature when she joined the Royal Australian Air Force. She lives in Brisbane, Australia, with her family, and now works for Boeing when she's not writing.

Jett Cooper is MAC's first novel, and she is writing a companion novel about Ella's flying adventures.
